# **Division of Summer** Session, Extramural Courses, and Related **Programs**

# Administration

Robert D. MacDougall, dean Charles W. Jermy, Jr., associate dean Judith K. Eger, assistant to the dean Valerie A. Sellers, registrar Fred L. Conner, manager, media services

### The Division

The Division of Summer Session, Extramural Courses, and Related Programs provides a wide variety of educational opportunities beyond the degreegranting programs of the University. These programs serve virtually all age groups in a great variety of formats and time frames.

# Summer Session

Summer Session provides some unique and unusually attractive opportunities for study and recreation for students ranging in age from high school senior to the senior citizen. With Ithaca weather at its best, summer study makes available the extensive academic and recreational facilities of the University and the Finger Lakes region. Students may choose from a wide spectrum of courses scheduled during three-week, six-week, and eightweek sessions, as well as dozens of special programs of varied lengths. Admission is kept relatively open and simple. Classes meet daily, and because they are usually small, a close association between student and teacher is encouraged. For more information, consult the Summer Session office, B12 Ives Hall, or call 256-4987.

# Cornell's Adult University

Cornell's Adult University (CAU) offers one-week, noncredit academic courses on campus during the summer and off-campus weekend seminars during the fall and spring. Though originally conceived as a program for alumni, that concept has long since been abandoned in favor of a concept of adult education. CAU is committed to the belief that learning never ends and that one of the roles of a great university is to provide a bridge between traditional, formal education and informal, noncredit studies. For more information, consult Cornell's Adult University, 626B Thurston Avenue, or call 256-6260.

# Extramural Courses

The extensive credit-course offerings of the University are available to area residents on a part-time basis. Those interested may apply for admission to practically any course in the University and will be admitted if they receive the instructor's written approval. The division also offers an Official Visitor's Program that allows persons to attend classes in many divisions of the University on a space-available basis at a reduced charge. Visitors are required to obtain written permission of the instructor. In this program, no credit is given and no record is kept of attendance or performance. During the January

intersession period the division offers credit courses primarily for undergraduates but open to anyone. Among the courses offered in recent years have been study tours to England, the Soviet Union, and Costa Rica. For further information, contact the extramural office in B12 Ives Hall or call 256-4987.

## Continuing Education Information Center

The Continuing Education Information Center provides free information, counseling, and referral to men and women who have been out of school for several years and want to resume their education. Anyone who wants to take courses, begin an undergraduate or graduate degree program, or complete an unfinished degree is welcome to use the services of the center.

The center provides information on all schools and departments of the University; opportunities for parttime and full-time study; special courses, workshops, and seminars; and community resources available to older students. A small library includes information on continuing-education research, adult learning and development, educational opportunities at local institutions of higher learning, financial aid, workstudy programs, and admission procedures. For further information, contact the Continuing Education Information Center, B12 Ives Hall, or call 256-4987.

# Conference Services

Excellent facilities, a beautiful campus, and a conference office concerned with each group's special needs make Cornell an ideal setting for conferences and meetings. Professional groups from all over the country come to Cornell to take advantage of this special learning environment. The conference coordinator is available to answer questions, advise on creative program ideas, assist in planning, make special arrangements, secure accommodations, and handle other administrative details. Every effort is made to ensure the success of each conference.

For more information about conferences at Cornell, consult the Cornell University Conference Services, 221 E North Campus Union, or call 256-6290.

#### Summer Courses

The Cornell University Summer Session offers a wide variety of courses each year. Among these are a number of courses that are typically offered each summer. The list that follows includes those courses that are likely to be offered during the summer of 1983. The list is not exhaustive; many additional courses that are offered only occasionally or for the first time are not listed. For further information, contact the Summer Session office, B12 Ives Hall, or call 256-4987. The 1983 Announcement of Summer Session will be published in March.

#### **Africana Studies and Research Center**

131-132 Swahili

#### **Anthropology**

- 111 Nature and Culture
- 113 The Comparison of Cultures
