VOL. IV.—No. 33.

ITHACA, N. Y., WEDNESDAY, JUNE 4, 1902.

PRICE TEN CENTS

VICTORY ON CAYUGA.

Harvard and Syracuse Second Crews Defeated.

The superiority of the Courtney stroke and Courtney training was never more strikingly demonstrated than in the race on Memorial Day. Rowing easily, strongly and gracefully, Cornell's best Junior 'Varsity crew as if on a leisurely practice spin, rowed the two miles on Cayuga in 10:48, defeating Syracuse by three and one-half lengths and Harvard by four and one-half. Syracuse rowed the two miles in 11:01, and Harvard in 11:11. Coach Sweetland's crew was made up mostly of freshmen; and consequently all Syracuse is now awaiting with confidence the outcome of the freshman race on the Hudson.

The day of the race dawned dark and lowering, and throughout threatening weather prevailed. But with optimistic faith that the race would be rowed at the appointed time, and with implicit and unprecedented confidence in the weather man, whose forecast has been favorable, great crowds kept pouring into the city, till its streets were blocked with people. In honor of the day the whole city clad itself in the colors of Cornell, Harvard, and Syracuse, every street being radiant with the bright hues of the Carnelian, the Crimson and the Orange and Blue.

By three in the afternoon the tide of people set out toward the scene of the coming contest. By four the observation train at the foot of Buffalo street was fast filling, and though the train was not scheduled to leave till five, by 4:30 only a few seats at either end of the train were left.

Shortly after five Assistant Passenger Agent Millsbaugh of the Lehigh, passed down the train on a last tour of inspection. Then taking his station on the platform above the press car in the middle of the train, he pressed the electric button communicating with the engines at either end, and the train was under way. With a jubilant shout the thousands shook free their banners and they were off. Picking its way carefully through the swamps, with gathering headway the long train rushed through Renwick Park, alive with shouting multitudes, and burst into the teeth of the north-west wind, sweeping down the lake and rolling great waves to the shore. Along the lake-side like a great sea-serpent the long train wound, and the shouts of those in the cars were answered by the greetings of the swarming thousands along the lake, perched at every point of vantage, whether on house-top or on rocky ledges. The lake was thickly dotted with large and small craft of every description, all filled with eager sight-seers.

At 5:32 the observation train halted three and one-half miles down the lake at the starting point of the race. The lake was still rough and the wind was high, and a long wait was in prospect. At 6:15 the referee announced the race for 6:45,

but the appointed time came and went and still no crews could be seen by the straining eyes of those on the train. But the spectators, possessed by the holiday spirit, took the wait good-naturedly. Song after song swelled up and down the cars. "Alma Mater" was sung. Just as its last bars were drifting out over the lake, as if in answer to an invocation, the clouds broke away, and for a moment the rays of the setting sun rested upon the ranks of the carnelian and white. As the sun sank behind the hills, it was followed by the strains of the Evening Song. The wind went down and the troubled lake became still and smooth.

At 7:12 Cornell was the first to appear and was greeted with ringing cheers. Syracuse and Harvard shortly followed, both receiving vociferous recognition from the spectators. Without delay the crews took their positions. Cornell had the inner course, Harvard the outer, while Syracuse held the middle.

There was a moment of deep silence as Referee Brandegee raised his megaphone. Then came the rapid inquiries, "Are you ready, Cornell?" "Are you ready, Syracuse?" "Are you ready, Harvard?" "Are you ready all?" "Go!"

The race was on! Like a flash the twenty-four oarsmen sprang into life and the three boats shot forward together, while the watching thousands rent the air with their cries. All the crews caught the water at the same time, rowing thirty-six strokes to the minute. Before a dozen strokes had been taken Cornell pushed to the front, and lowering her stroke to thirty-two, with the regular swing of the pendulum, pulled away, leaving the fight to Harvard and Syracuse.

At the quarter there was open water between Captain Whittlesey's boat, and the crews of Syracuse and Harvard. Syracuse was rowing strongly at thirty-four strokes a minute being nearly a length ahead of the crimson shell. Just after the quarter was passed the orange and blue with a desperate spurt tried to

cut down Cornell's lead of one and a quarter lengths, but failed. Cornell, inch by inch, foot by foot, and length by length, was pulling away. From this point on, Cornell, as far as the spectators were concerned, was so far ahead that she was out of the race. The contest was being fought out by Syracuse and Harvard, and on these two crews the eyes of the spectators rested, though at intervals the supporters of Cornell would wave a flash of encouragement to their crew far ahead.

With good generalship, Syracuse husbanded her efforts for a fight with Harvard for second place. At the three-quarter post Harvard spurted and pulled strongly upon Syracuse; but Coach Sweetland's men again dug in their oars, and set the orange and blue on the train fluttering ecstatically as they drew ahead till they led Harvard by a length. Cornell nearly two lengths ahead passed the mile mark at 5:15.

Coach Sweetland's freshmen were rowing a plucky and determined race. At the mile and a quarter Harvard again spurted and this time set the Syracuse rooters wild with alarm as they slowly pulled up, till at a mile and a half Syracuse led by only half a length. But the Syracuse coxswain counted ten and as his men responded, the boat forged ahead and the anxious watchers on the train breathed easier once more.

Then came the final struggle. At the mile and three-quarters mark, Cornell was rowing leisurely at thirty-one strokes a minute, two and one-half lengths ahead. Syracuse, rowing somewhat raggedly, was nearly a length ahead of Harvard, whose men were splashing badly at this point and seemed much distressed.

Cornell with a rhythmic and beautiful swing came swiftly to the flag and swept over the line amid the screeches of steam-launches and the cheers of the thousands on the train. Syracuse finished three and one-half lengths behind Cornell, crossing the line a length to the good of the crimson crew. As Harvard dragged over

the line, the train-load of jubilant spectators were carried promptly back, and on into the city.

Coach Courtney's men finished strong and showed no signs of exhaustion. But it was otherwise with Syracuse and Harvard. All their men were badly distressed. In the Syracuse shell Brown at number seven toppled over, and Stroke Bagg fell forward. In the Harvard boat, Stroke Boardman and Foster at number four fell forward but revived as cold water was dashed in their faces.

It was a beautiful contest and gamely fought out, almost throughout. Cornell made a stroke of thirty-one, while Syracuse rowed thirty-four, often in spurts as high as thirty-six. Harvard wore herself out by a stroke of thirty-six.

The personnel of the three crews was as follows:

Cornell—Sebring, bow; Ballinger, No. 2; Foote, No. 3; Shepard, No. 4; Torney, No. 5; Wadsworth, No. 6; Whittlesey, No. 7; Frenzel, stroke; Atkin, coxswain. The average age of the crew was 20½ years; the average height 5 feet nine inches and the average weight 164 pounds.

Syracuse—Galpin, bow; Duell, No. 2; Becker, No. 3; Park, No. 4; Dempster, No. 5; Bailey, No. 6; Brown, No. 7; Bagg, stroke; Smith, coxswain. The average age of this crew was 21½ years; the average height, five feet, seven and one-half inches; the average weight 145 pounds.

Newell Club—Low, bow; Stone, No. 2; Morris, No. 3; Foster, No. 4; Haycock, No. 5; Henderson, No. 6; Swain, No. 7; Boardman, stroke; Stokes, coxswain. The average age of the Newell club was 21 years, the average height, five feet nine inches and the average weight, 157 pounds.

The officials for the race were: Referee, E. D. Brandegee; Judges, Cornell, Professor H. S. White; Syracuse, J. T. Millard; Harvard, R. M. Manning; Timers, Cornell, A. S. Petty; Syracuse, B. L. Smith; Harvard, H. Vail; Judges at finish, Cornell, B. E. Fernow; Syracuse, R. W. Phelps; Harvard, G. Clark.

CORNELL SECOND CREW
which won over Harvard and Syracuse on Lake Cayuga.

AT MARTINIQUE.

Robert T. Hill, '87, Investigates the Volcanic Activities.

A Cornellian, Robert T. Hill, '87, has been investigating the zone of the volcanic eruptions in Martinique. He is a United States government geologist and head of the expedition sent out by the National Geographical Society. He left for the scene of the disaster a few days after the destruction of St. Pierre; and since his arrival there, has been investigating the geological structure, and the results of the phenomena attending the recent eruption. In addition to a thorough investigation along these lines, he will gather valuable data for a further study of the phenomena attending volcanic eruptions.

After leaving the United States, Professor Hill with the aid of a chartered steamer, carefully examined the coast as far north as Port de Macomba, making frequent landings and inland excursions. Landing at Le Precheur, a point five miles north of St. Pierre, he walked to the latter place through an area of active volcanism, and was thus enabled to make an accurate study of the various phenomena disclosed. Thanks to a lull in the activity of Mont Pelee, he was enabled to investigate the area of the craters and the fissures and fumaroles. He was the first scientist to make this hazardous trip after the recent disaster, and because of his eminent position as a scientist, his stay is not only interesting but valuable. Professor Hill and his party, in addition to their scientific researches, have rescued several terror stricken persons who had returned to their homes after the temporary lull in the volcanic activity.

Professor Hill has made a preliminary report in the investigations thus far made. He has reported in part as follows:

"The zone of the catastrophe in Martinique forms an elongated oval, containing on land about eight square miles of destruction. This oval is partly over the sea. The land part is bounded by lines running from Le Precheur to the peak of Mont Pelee, thence curving around to Carbet. There were three well-marked zones:

"First, a center of annihilation, in which all life, vegetable and animal, were utterly destroyed. The greater northern part of St. Pierre was in this zone.

"Second, a zone of singeing, blistering flame, which also was fatal to all life, killing all men and animals, burning the leaves on the trees and scorching, but not utterly destroying, the trees themselves.

"Third, a large, outer, non-destructive zone of ashes wherein some vegetation was injured.

"The focus of annihilation was the new crater, midway between the sea and the peak of Mont Pelee, where now exists a new area of active volcanism, with hundreds of fumaroles or miniature volcanoes.

"The new crater is now vomiting black, hot mud, which is falling into the sea. Both craters, the old and new, are active. Mushroom shaped steam explosions constantly ascend from the old crater, while heavy ash-laden clouds float horizontally from the new crater. The old ejects steam, smoke, mud, pumice and lapilli, but no molten lava.

"The salient topography of the region is unaltered. The destruction of St. Pierre was due to the new

crater. The explosion had great superficial force, acting in radial directions, as is evidenced by the dismounting and carrying for yards the guns in the battery on the hill south of St. Pierre and the statue of the Virgin in the same locality, and also by the condition of the ruined houses in St. Pierre.

"According to the testimony of some persons there was an accompanying flame. Others think the incandescent cinders and the force of their ejection were sufficient to cause the destruction. This must be investigated. I am now following the nature of this hill."

His statement is the first scientific report based upon the observed facts.

Professor Hill has started on a horseback trip to the volcano, and will endeavor to investigate the whole affected area; and, if possible, make a study of both craters. His itinerary will include Morne Rouge and the slope of Mont Pelee.

The investigations of this recent Cornellian will be watched by all interested in physical and natural science; and with the excellent opportunity thus afforded for an accurate study of volcanic phenomena, his report will be very interesting. Professor Hill has long been studying the geological history and structure of the West Indies. He has written several scientific treatises in regard to them, and but a few years ago published a book on this group of islands in which he predicted their destruction by volcanic eruptions. The early fulfilment of this gloomy prediction, is one of the many indications of that keen foresight and ability that will make the result of his investigations in Martinique the more valuable and important.

Ithaca High Champion.

The morning of Decoration Day, before a crowd of 1200 people, the Ithaca high school baseball team defeated the Masten Park high school team, of Buffalo, by the score of 5 to 4. This was the final and decisive game of the intercholastic league series.

This league is under the supervision of Cornell University and the winner of the championship is annually presented with the handsome trophy cup given to the league by the class of '93 of Cornell. This is the third consecutive year that the local high school team has won this cup over all other teams in the league.

The crowd at Percy field was the largest that has attended any game this season and the profits of the game which goes to the Ithaca team, will give them good start for next season.

The game was intensely interesting throughout. Twice the Buffalo team had three men on bases and only one man out, yet failed to score. It was not until the last man had stood at the bat and been put out that the result of the contest was assured. The victory was won by the heavy hitting of the Ithacans and the splendid pitching of Jackson. The work of Captain Larkin behind the bat was especially commendable. His good throws to second put out a large number of Buffalo runners.

THE ALUMNI.

One purpose of THE ALUMNI NEWS is to keep Cornell men informed about one another. Every Cornell man, therefore, is invited to contribute to this column news concerning himself or any other student, and every contributor should remember that in sending news items he is conferring a favor upon other Cornellians.

'74, B. S. Herman L. Fairchild writes on the Geological Society of America in a recent number of *Science*. '79, B. S. Walter M. Chandler is acting manager for Simmer & Jack, the West Gold Mining company, and the Jupiter Gold Mining company, all of Germiston, South Africa. He has been engaged in mining work for a number of years, spending the time from 1890 to 1894 in Central and South Africa, 1895 to 1897 in Rhodesia, 1898 in Siberia, and since then has been in South Africa.

'79, B. C. E. Frank W. Skinner has an illustrated article on "Triumphs of American Bridge Building" in the *June Century*.

'83, A. B.; '87, A. B. Among the articles in the *June World's Work* are "How New York Educates its Citizens," by Franklin Matthews, '83, and "A Model School," by James E. Russell, '87.

'84, B. C. E. The United States Department of the Interior has published as No. 64 of its irrigation series a report by Edward C. Murphy on "Accuracy of Stream Measurements." Much of the work on the report was done at the Cornell hydraulic laboratory and a number of photographs taken in the neighborhood of Triphammer falls are included.

'84, B. S.; '84, B. C. E. Among recent visitors at the University were George B. Davidson, B. S., of Scranton, Pa., and Charles A. Hasbrook, B. C. E., of New York, contracting engineer for the American Bridge company.

'85, B. S.; '01, B. S. A. *Country Life* for June contains among its articles "Butterflies and Moths," by Mrs. Anna Botsford Comstock, '85, and "The Making of a Country Home," by Bryant Fleming, '01.

'89, M. E. William W. Churchill is now third vice-president of the corporation of Westinghouse, Church, Kerr & Company, and is also chief engineer. He has been with the company for a number of years, and has worked his way up, his first occupation while in the company's employ being clipping furnace castings in the stoker shop.

'94, E. E. John H. Meikle, Jr., is engaged in electrical engineering at Bulawayo, South Africa. During his stay in that country he has done work in electric light and power construction and for the Bulawayo Waterworks company and several gold mining companies.

'94, LL. B.; '95, LL. M. Frederick C. Woodward, who for the past five years has been professor of law at Dickinson college, has been appointed to a professorship in law at the Northwestern University law school in Chicago. He will enter upon his duties there in the fall.

'95, Ph. B. Elwin A. Ladd has been appointed vice-principal of the high school at Batavia, N. Y., and will give up his position as principal at Bergen to accept the appointment.

'95, E. E. Lester G. Smith, who has been with the Westinghouse Electric and Manufacturing company

since graduation, now has a position in the Boston office of the company. '95, M. E. Alexander L. Brodhead is now assistant engineer for the Edison Portland Cement company of Stewartsville, N. J.

'96, E. E. Theodore G. Plate, Jr., is now engaged in the jewelry and watch business at Hackettstown, N. J. He was formerly with the American Telephone and Telegraph company, and with the Western Electric company.

'96, M. E. William W. Ricker is now constructing engineer for the Brown Hoisting Machinery company, of Cleveland, Ohio, with which concern he has been for a number of years.

'97, M. E. Alfred Hurlburt is superintendent of the Yonkers district for the Westchester Lighting company.

'98, LL. B. John F. Murtaugh was a recent visitor at the University, coming from Elmira to attend the Pennsylvania baseball game.

'99, E. E. John E. Rutzler is manager for Enoch Rutzler, manufacturer of steam and hot water heating apparatus, of New York city.

'99, A. B. Edith M. Bickham has been elected to a fellowship in Greek and Latin for next year at the University. For two years she has had the work in Greek at the Emma Willard school, Troy, N. Y., where she has won the reputation of being an unusually able and brilliant teacher. For several months this year, during the absence of a principal, she was in charge of the academic work of the school as executive officer. The *Troy Times* comments on the fine character of the work done by the pupils under her instruction and the principal pronounces her a "rare and superior teacher."

'00, A. B. Anna W. Lyon, who is now teaching in Plattsburg, N. Y., has been appointed to a position at Greenport.

'00, B. S. A.; '01, M. S. in Agr. Otto F. Hunziker, who is now taking advanced work at the University and acting as assistant in pathology, has been appointed instructor in bacteriology in the Veterinary College.

'00, LL. B. Herbert D. Mason, who has been with Attorney George S. Tarbell, '91, of Ithaca, since graduation, has resigned to accept a position in the office of Hornblower, Byrne, Miller & Potter, 30 Broad street, New York city. He will be connected with the pleading and practice department of the firm's business. He will take up his new duties about August 1, spending the intervening time in the completion of a book on highway law which he is compiling for Banks & Company, publishers.

'01, LL. B. Herbert D. Cohen was sworn in as an attorney in New York city last week before the appellate division of the state supreme court.

Ex-'01. Chauncey T. Edgerton is a draughtsman for the Brooklyn Heights Railroad company.

Weddings.

DU PAY-REED.

The marriage of Miss Emma L. Du Pay and William E. Reed, M. E., '89, took place in Erie, Pennsylvania, Saturday, April 26. The couple will make their home in Cleveland, Ohio, where Mr. Reed is engaged in engineering work.

The sophomore class in medicine has decided to raise \$100 towards the establishment of a medical library in Stimpson Hall.

WEDNESDAY, JUNE 4, 1902.

THE SUMMER SESSION.

The fourth regular summer session of the University will open on Monday, July 7th, in which some fifty professors and instructors will offer an aggregate of ninety-four courses, distributed in twenty-three departments. The attendance of tuition-paying students has steadily increased year by year. Aside from those in the nature study department, who paid no tuition, the attendance has been as follows: 1899, 312; 1900, 356, an increase of 44; 1901, 424, an increase of 68. The same rate of increase would lead one to expect an attendance of about 500 during the present summer. The compensation of those who give the instruction has been increased so that it is now \$400 for professors, \$300 for assistant professors, and \$200 for instructors.

It is the uniform testimony of those who attend these sessions that the work is profitable and attractive and that a six-week's sojourn in Ithaca is an event to be remembered. Although it sometimes gets pretty warm here for a few days at a time, a glance at the daily papers shows that when it is moderately hot in Ithaca it is almost unbearably hot elsewhere, while inspection of the reports of the weather bureau shows that the average temperatures here are but little higher than at Lake George. So instructive are these figures, that on hot days, Dean Crane declares they are the chief source of his comfort. Perhaps if all Ithaca knows these figures all the inhabitants may likewise be comforted at times when comfort is most needed. The record is as follows:

ITHACA.

Year.	Av'r'g. maximum temperature.		Av'r'g. minimum temperature.	
	July.	August.	July.	August.
1896	80.2	80.1	61.6	59.4
1897	81.0	75.5	63.8	55.9
1898	84.6	79.4	62.8	62.4
1899	83.0	85.0	58.5	57.9
1900	83.0	82.9	61.0	61.7
1901	84.5	78.2	64.1	64.8

LAKE GEORGE.

Year.	July.		August.	
	July.	August.	July.	August.
1897	79.3	75.5	62.5	55.0
1898	81.7	78.6	60.7	59.9
1899	80.8	80.8	59.7	58.2
1900	80.6	78.5	59.3	59.8
1901	80.8	76.7	61.2	59.4

Not a few scholars are attracted to Ithaca in summer by the unusual facilities for research furnished by the University library, which now numbers more than a quarter of a million volumes.

The aggregate of attractions here is very great, for many of the ablest professors devote their time to the students. Class-rooms, shops, laboratories, and libraries are placed at the service of the learners, while the many and delightful forms of outdoor amusement fill the leisure hours with healthful pleasures. This year, in addition to the bi-weekly twilight musical recitals, there will be a weekly Monday evening lecture, to which the public will be likewise invited.

Calendar of Coming Events.

June 4, Wednesday—Commencement of the Medical College in New York City.

" 8, Sunday—University preacher, Rev. Philip S. Moxom, D. D., Springfield, Mass.

" 12, Thursday—Instruction ends.

" 15, Sunday—Senior week opens with the Baccalaureate sermon by Rev. Henry Van Dyke, D. D., Princeton, N. J.

" 21, Saturday—Annual Regatta on the Hudson at Poughkeepsie.

July 7, Monday—Summer session opens.

COMMENCEMENT CALENDAR.

June 12, Friday—President Schurman's reception to the seniors and Faculty.

" 15, Sunday—Baccalaureate sermon by Rev. Henry Van Dyke.

" 16, Monday—Exhibition of drawings and equipment of the departments of civil engineering and architecture in Lincoln Hall; of mechanical engineering in Sibley college; of physics in Franklin Hall; of chemistry in Morse Hall. Masque performance at Lyceum. Zeta Psi dance.

" 17, Tuesday—Class Day exercises. Baseball game between the alumni and the Varsity on Percy Field at 4 P. M. Organ recital at Sage Chapel at 4:30 P. M. Senior ball in the Armory at 9 P. M.

" 18, Wednesday—Meeting of the board of trustees in Morrill Hall at 10 A. M. Business meeting of the Women Graduates Association in Barnes Hall at 12 M. Annual meeting of the Associate Alumni in Barnes Hall at 4 P. M. Musical clubs concert in the Lyceum at 8 P. M. Dances given by Chi Psi, and Alpha Tau Omega at 11 P. M.

" 19, Thursday—Thirty-fourth annual commencement at 10:30 A. M. Dances given by Chi Phi, Sigma Phi, and Theta Delta Chi at 11 P. M.

" 20, Friday—Kappa Alpha boat ride at 4 P. M.

Reunions will also be held by several of the classes, but the exact hours for these have not yet been appointed. Notice will appear in the NEWS when they are decided upon.

CAMPUS NOTES.

Current Happenings of Minor Importance and Present Interest.

On May 29, the evening before the regatta, the musical clubs rendered a regatta concert in the Lyceum. The glee and mandolin clubs each rendered several selections appropriate to the occasion on the following day. In addition to the Cornell rowing songs, "Fair Harvard," "The Chimes," and the "Eton Boating Song," were rendered. A new song written by William L. Wood, "Firmly Catch and Swiftly Pull," was sung for the first time and made a very strong impression. Solos were rendered by C. E. Mott, '03, with a violin and piano accompaniment; and by Robert Ryon, '03. J. C. Culvert sang "Barney McGee," and encores.

The guests of the evening were the crews to race on the following day. The Harvard crew occupied the upper left hand boxes; and as they were not present at the time "Fair Harvard" was first sung, it was repeated later in the evening for their benefit. The right hand boxes were reserved for the Syracuse crew, but owing to their inability to reach Ithaca until late in the evening, they were not present. The Cornell crew attended.

The large and appreciative audience showed that a concert on such an occasion is not only appropriate but highly successful.

Last year's precedent for a Navy Ball was followed this year, and one was held on May 29, immediately after the musical clubs' concert. The Armory was decorated in the colors of Harvard, Syracuse, and Cornell. In decorating this large room, Rothschild did not try to rival the Senior ball in its magnificence, but prettily draped the walls in the different harmonious college colors. The boxes which were arranged around the room as usual, numbered nineteen. The music was furnished by Coleman's orchestra increased to twenty-five pieces, and Alberger supplied the refreshments. The programs were in the form of a small booklet with the seal surrounded by a pair of crossed oars on the front cover. The patronesses were Mrs. Schurman, Mrs. Crane, Mrs. Blair, and Mrs. Gauntlett. The musical clubs concert and the Navy ball add increased pleasure to the attractions of Regatta Week.

A more or less general agitation regarding the status of the freshmen in the University, culminated last week in the recommendation by a committee appointed for the purpose, of a set of rules to govern the conduct of the first year men. These rules were printed in the *Sun*, and at a mass meeting of the undergraduates were ratified. The movement is more or less of an experiment; but is certainly to be commended as an effort to put into definite shape the somewhat incoherent and disordered customs in the matter, which at present prevail. The rules as ratified by the mass meeting contain much that is old, such as barring the freshmen from the downtown resorts except under special conditions, and forbidding them to smoke on the Campus. The new regulations are a requirement that all freshmen wear a cap of a special design, refrain from wearing preparatory school insignia, that they do not take their coats off on the Campus,

NEWELL CLUB CREW OF HARVARD.

and that they be not allowed to occupy seats in the boxes or the first three rows at the Lyceum except when accompanied by an upperclassman.

As the base ball team's season nears its close, it becomes apparent that the high hopes which were entertained at the start will not be realized. The team has given some exhibitions of first-class base ball; and only a combination of unfortunate circumstances has prevented them from winning more of their games. Of course they have had their slumps, coming far short of their own standard; but in general their work has been better than their record below would indicate. Of the twenty-five games played thus far, the nine has won sixteen, lost eight, and tied one. There remain three games to be played in addition to the regular Alumni game on Tuesday of Senior week. These are on the western trip to be taken next week. The season's record with the games remaining to be played is as follows:

March 28—	Cornell 6, Wofford 0.
	31—Cornell 6, Georgia 6.
April 1—	Cornell 8, Georgia 3.
	2—Cornell 25, Georgia 6.
	3—Cornell 2, Clemson 6.
	4—Cornell 7, Furman 3.
	5—Cornell 8, North Carolina 1.
	7—Cornell 16, Virginia 10.
	9—Cornell 10, Annapolis 6.
	12—Cornell 11, Rochester 1.
	19—Cornell 12, Niagara Univ. 4.
	26—Cornell 10, Columbia 7.
	30—Cornell 1, Princeton 5.
May 1—	Cornell 1, Fordham 4.
	2—Cornell 3, Lehigh 1.
	5—Cornell 2, U. of P. 4.
	10—Cornell 6, Princeton 18.
	15—Cornell 5, Manhattan 2.
	17—Cornell 10, Michigan 9.
	20—Cornell 12, Carlisle 3.
	24—Cornell 11, U. of P. 3.
	28—Cornell 1, Harvard 11.
	29—Cornell 0, Holy Cross 3.
	30—Cornell 7, Williams 4.
	31—Cornell 0, Brown 4.
June 12—	Cornell vs. Oberlin, Oberlin.
	13—Cornell vs. Michigan, Ann Arbor.
	14—Cornell vs. Michigan.
	17—Varsity vs. Alumni, Ithaca.

Harvard Wins Intercollegiate.

For the second consecutive year Harvard won the Intercollegiate Track Meet at Berkely Oval on Saturday last. The twenty-seventh annual meeting was probably the most interesting and successful in the history of the Association, the performances being uniformly excellent, and each event furnishing a close and exciting contest. Favorable weather and field made high-

class work possible, and no less than five intercollegiate records were broken. All of the leading and many of the smaller colleges were represented in the meet, but only ten succeeded in taking points. Harvard won on the general excellence of her team with 33 points, taking only three firsts, but having men in nearly every final. The contest between her and Yale was very close. Yale won only one event, but took points in all except one, and was second with 30 points. Princeton made up a splendid showing with 27 points. These three colleges taking the same rank as last year, were so close that the last race decided the champion. Amherst was fourth with 11 points, and Duffy and Holland for Georgetown took the same 10 points that they won last year; Pennsylvania with 9, Syracuse and California with 8, and Cornell and Columbia with 3 each, made up the rest of the scoring. Schick of Harvard ran under an apparently groundless protest, and won 6 points. Should he later be disqualified, the positions of Yale and Harvard will be reversed, the meet going to Yale with 33 points and Harvard second with 29.

In point of records the meet was very successful, the most remarkable performance being that of Duffy in the 100 yard dash. Duffy is a consistent 9 4-5 performer, and on this occasion pushed by Schick, who is also capable of equaling the record for the distance, he succeeded in lowering the former world's record of Wefers, made in 1896, to 9 3-5 seconds. He had run the semi-finals in 9 4-5, and with a perfectly fair start he tore through the stretch, finishing in time which no amateur has ever equalled,—the record is a remarkable one and sure to stand indefinitely. Other record performances were: Dewitt's throw in the hammer of 164 feet 10 inches, breaking the intercollegiate record by over 10 feet, and defeating Plaw of California, the old record holder. In the shot Beck of Yale, added 5 inches to his own record with a put put of 44 feet 8½ inches, while Horton of Princeton, after winning the vault at 11 feet 3 inches, succeeded in clearing 11 feet 7 inches, breaking all collegiate records, but failed at 11 feet 11 inches in an attempt at the world's record. The time in the track events, especially in the hurdles was uniformly fast and close to established figures.

Cornell was represented in all

events but the dashes by a team of fourteen men. Ketchum got into the semifinals of the 120 yard hurdles, and Walton into the semifinals of both the hurdles; but both were shut out of the finals. Porter in the shot put qualified for the finals, tying with Dewitt at 41 feet 9 inches, but could not better his put on Saturday. Captain Young in the broad jump ruptured the tendons of his leg again, and the other men who were taken did not qualify. On Saturday in the mile, Trott and Flanders alternated in the lead for three-quarters of the distance, but were passed at the tape in a hot finish, Trott coming in fourth. In the two mile run Foster proved a surprise, leading nearly the whole race, and only beaten by a few yards, taking third behind Bowen and Franchot in the fast time of 9.57.

Trainer Moakley was of course dissatisfied, but by no means discouraged at the showing made, after having defeated both Princeton and Pennsylvania in dual contests; he attributed the failure to score more than 3 points to a general lack of individual stars on the team, which was otherwise a well-rounded one.

JUNIOR CREW LOSES.

Pennsylvania Wins the Schuylkill Regatta.

The outcome of the Memorial Day regatta on the Schuylkill was not a surprise to those who had been watching the work of the several crews in the race. Pennsylvania's victory was virtually conceded when Coach Courtney decided to send his second best Junior crew to Philadelphia and keep the better combination for the race with Harvard and Syracuse.

The Pennsylvania crew consisted largely of men who will be in the Poughkeepsie contest, and it will be an important factor in that event.

The race was scheduled to start at four o'clock, but a long delay was occasioned by a strong headwind blowing straight up the river. After waiting over an hour for the wind to die down, the referee, W. Inness Forbes, Commodore of the Schuylkill Navy, sent the crews away in a splendid start. Cornell led for a little more than a hundred yards, when the Columbia boat slowly forged ahead. Meanwhile the Pennsylvania crew were rowing in good form, at a thirty-four stroke.

After the first eighth of a mile had been covered Pennsylvania, rowing thirty-six, assumed the lead, and retained it until the end. At the half way mark Columbia had fallen a length in the rear, while Cornell, rowing thirty-three, was a length behind Columbia. Pennsylvania was rowing thirty-five, while Hanlan's men were rowing rapidly at thirty-eight. Cornell's coxswain called for a spurt, but the rough water prevented any material gain.

During the last half of the race Pennsylvania's boat increased its lead a length, notwithstanding the efforts of Columbia's men, who hit up the stroke to forty. Cornell was slowly falling further to the rear and crossed the line about two lengths behind Columbia, who, in turn, was two lengths in Pennsylvania's rear.

The course, one and one-half miles in length, was covered by Pennsylvania in 8 minutes 48 seconds, and by Columbia in 8 minutes 55 seconds. Cornell's time was given out as 9 minutes 7 seconds, but was probably three seconds better than that. Repeatedly in practice the Pennsylvania eight, it is asserted, has covered the distance in 7:50 or better, and the poor time made in competition was due to the high wind, which almost raised white caps on the river.

The crews were made up as follows:

PENNSYLVANIA.

SUMMER SCHOOL.

Prospectus of the Coming Session

The summer session of the University will open on July 7, and continue until August 16. The chief object of the summer session is to furnish instruction to teachers in high schools and academies; but provision is also made for the instruction of college professors and for students who have work to make up. Subjects which are included in the high school curriculum, as well as manual training, are taught, besides courses suitable for graduate students. Students matriculated in the University may receive credit to the extent of seven hours, for work done during the summer session but only those registered in the summer session may receive certificates of satisfactory attendance and work.

Arrangements have been made whereby persons attending the summer school may secure a reduction of the railway fare on the return journey provided they purchase tickets at points within New York, Pennsylvania, New Jersey, Delaware, Maryland, Virginia, West Virginia, Kentucky, Tennessee, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi and Louisiana. The purchaser of a ticket to Ithaca in any of these states, receives a certificate which entitles him to a reduction of two thirds on his return journey. These certificates have been granted by the Railway Passenger Associations and must be

signed by Registrar Hoy immediately on the holder's arrival in Ithaca. The only other conditions governing them is that the ticket to Ithaca must be purchased between July 3 and July 9.

The courses in history and the languages will be especially good this year. Besides Professor Burr's lectures, a course in "American Political and Constitutional History, 1775 to 1836" will be conducted by Professor George Elliot Howard formerly of Leland Stanford, Jr. Professor VonKlenze, associate professor of German in the University of Chicago, will have charge of German conversation and composition; German reading and translation will be under the direction of Professor Hewett. Professor Edward Everett Hale, Jr., professor of English literature, Union College, will lecture on English poetry of the nineteenth century, Shakespeare and English composition and rhetoric. Professor Bennett and Assistant Professor Durham are to have charge of the Latin courses; Greek will be taught by Professor Bristol. Professor Titchener will have charge of the psychological department; Professor Atkinson will direct the work in botany. The science and art of education will be the subject dealt with by Professor DeGarmo.

ROTHSCHILD BROS.

EASTERN TRIP.

Baseball Team Returns—Three Defeats and One Victory.

The baseball team returned Sunday morning after an unsuccessful eastern trip, having lost to Harvard, Holy Cross and Brown, and having won from Williams. The defeats were due, almost entirely, to the team's inability to bat; added to which, in the Harvard game, was some poor fielding. Otherwise the team played well, greatly handicapped, however, by the poor condition of Chase, its one veteran pitcher.

HARVARD 11, CORNELL 1.

The team was defeated by Harvard at Cambridge, on Wednesday, by the score of 11 to 1. Harvard took the lead in the first inning and won the game by fourteen safe hits. The weather was raw, which accounted for the many infield errors, and made the game rather uninteresting after the first two innings. Chase, who was to pitch, was out of condition, on account of his arm, and had to be put in center field. Bristol was put in the box, but was found for fourteen hits by Harvard, and gave five bases on balls. Brown made the only score for us by a home run in the fourth inning. Outside of this and a three-base hit by Bristol, the team did not seem able to find Stillman.

In the first inning a base on balls, three hits and two errors scored three runs for Harvard. Three hits, bases on balls and one error added four more in the second; and a three-base hit and a single gave another in the fourth. Two hits and two errors scored two runs in the seventh, and two hits and a wild pitch the last

run in the eighth. Cornell's one run came in the fourth.

The batting order is as follows:

CORNELL.

	AB	R	BH	PO	A	E
Brewster, 1 f.....	3	0	0	1	1	1
Brown, 2 b.....	4	1	2	1	2	2
Lewis, s s.....	4	0	1	4	4	0
Whinery, c.....	3	0	0	7	2	0
Bristol, p.....	4	0	1	0	3	2
Ferguson, 1 b.....	4	0	0	7	0	0
Drake, r f.....	3	0	0	0	0	0
Costello, 3 b.....	3	0	0	1	1	2

Stillman, p.....	5	1	3	0	1	0
Clarkson, c f.....	5	1	2	0	0	0
Matthews, 2 b.....	3	0	1	0	0	0
Carr, 3 b.....	3	2	2	3	0	2
R. H. Kernan, c.....	3	1	2	10	1	0
Totals.....	34	11	14	27	9	4

The score by innings:

Harvard.....	3	4	0	1	0	0	2	1	x	—11
Cornell.....	0	0	0	1	0	0	0	0	0	—1

Earned runs—Harvard 2, Cornell 1. Home run—Brown. Three-base hits—Clarkson, Bristol. Two-base hits—Stillman, Kernan. Sacrifice hit—Skilton. Stolen bases—Coolidge 2, Wendell, Randall, Matthews, Carr. Double play—Skilton to Coolidge to Randall. Bases on balls—By Stillman 2, by Bristol 5. Hit by pitched balls—Matthews, Carr. Struck out—By Stillman 7, by Bristol 2. Wild Pitch—Bristol. Time of game 2:15. Umpire—Murray.

HOLY CROSS 3, CORNELL 0.

On Thursday the team was beaten by Holy Cross, at Worcester, by a score of 3 to 0. It was a close, fast game, in which Holy Cross won on Noonan's making a home run in the fifth inning when two men were

on bases. Henderson pitched the entire game for Cornell and allowed only five hits. His support, too, was excellent, but the Cornell players were unable to hit the ball when hits meant runs; the three hits they did make were scattered. All the runs for Holy Cross were made in one inning. Out-side of that no man scored.

The batting order was as follows:

HOLY CROSS.

	R	H	PO	A	E
Skelly, r f.....	0	0	0	0	0
Singley, 3 b.....	1	0	5	0	0
Baldwin, c f.....	2	1	1	0	0

Holy Cross.....	0	0	0	0	3	0	0	0	0	—3 5 1

Batteries—Henderson and Whinery, McGeehan and Noonan. Struck out—By McGeehan 6, by Henderson 8. Bases on balls—Off McGeehan 2, off Henderson 5.

BROWN 4, CORNELL 0.

Again the team was defeated. Brown won from Cornell by the score of 4 to 0, at Providence, Fri-

day in a hotly contested game. Hatch, the Brown pitcher, allowed our team only five scattered hits and struck out nine men. Bristol was in the box for Cornell and pitched a good game, allowing Brown only five hits and fielding his position well, two put outs and three assists being to his credit.

The team made two errors, one each by Ferguson and Lewis. Lewis however, redeemed himself by making a two-base hit. The only other Cornell hitters who were able to solve Hatch's curves were Captain Whinery, Drake, and Costello.

Brown at second base did some good work, successfully fielding four hot grounders. Whinery also fielded well, five of Cornell's put outs being to his credit. Cornell's outfield played good ball but the few safe hits that were made off Bristol at opportune times gave the local team the game.

BROWN.

Batteries—Bristol and Whinery, Hatch and Phillips. Struck out—By Hatch 8, by Bristol 3. Bases on balls—Off Hatch 2, off Bristol 3.

CORNELL 7, WILLIAMS 4.

The team won the last game of the trip on Saturday, with Williams, by the score of 7 to 4. For the first time Cornell hit the ball hard. Eleven hits were made, which were enough to win the game, aided by the infield errors of Williams. Henderson pitched and won a good game. He allowed seven hits, and only gave three passes to first base. Brown's hitting for Cornell was a feature of the game.

The batting order was as follows:

WILLIAMS.

Second Track Team Wins.

The Cornell second track team annually meets the Ithaca Preparatory Schools in a track meet. All track men who are not at the training table are entered, and are thus given practical experience in a regular meet; an opportunity is also offered to size up the preparatory school men who, in all probability, will enter Cornell within the next year or two.

The second team easily won the meet with a total of 73½ points against 16½ for the Ithaca High School, and 13 the University Preparatory School. Cascadilla, the other Ithaca school, was not represented in the meet owing to the lack of available material. While none of the performances were remarkable, the results indicate that there are several good men in the preparatory schools here. Turner in the high hurdles and Barton, the pole vaulter, are promising candidates; while Crouch in the broad jump and Casterline in the high jump can be developed into good athletes. Turner, of the University Preparatory School, captured both the hurdles, and Crouch, of the Ithaca High, won the broad jump at 19 feet 8½ inches. The high jump was won by Kreuse, '05, at 5 feet, 7 inches, and Cleveland, '05, captured the 100 yard dash in 10 3-5 seconds. The pole-vault was won by Meissner, '05, who cleared 10 feet 9 inches.

The second team is to meet Wyoming Seminary at a dual meet in the near future, and the team to go on this trip will be picked from the successful candidates in this meet.

CORNELL JUNIOR CREW

which was defeated by Pennsylvania and Columbia at Philadelphia.

HOSPITAL APPOINTMENTS.

Further Information Regarding the Success of Cornell Graduates.

In the accounts of the success of the students in the Medical College certain matters have been overlooked or will bear emphasis. In the first place all but three of the students who received their first two years or more of instruction at Ithaca have received hospital appointments. These three, for one reason or another, did not take the examinations and therefore the records are even better than at first reported. The struggle for appointment as a hospital interne is more severe than is generally understood and is regulated entirely by competitive examinations conducted by the visiting surgeons and physicians of the different hospitals. Each, of course, desires to obtain the men who are the best educated in all respects and consequently the examinations while perfectly fair are both theoretical and practical. Not only must the student be able to prove himself superior to all competitors in what he has learned from books and by precept; but he is assigned to one or more patients in the wards and must be able to make a better diagnosis and prescribe a better course of treatment than all his fellows. The full meaning of this is only appreciated when it is explained that for at least one hospital which offered only four appointments there were over one hundred applicants.

A fact which is seldom emphasized enough is that almost without exception those students who had had the best preliminary education, in other words who had an Arts course either prior to or in preparation for their medical course,—attained the highest positions. Too much cannot be said on this line. Those who have obtained the A. B. degree in nearly every instance have been proved time and again to have a great advantage in these professional competitions. And they are steadily becoming harder. Men from the smaller cities and medical schools all over the country are coming to New York hospitals every year in increasing numbers. The almost indispensable value of hospital training is becoming more generally recognized. There are more hospitals and more distinguished physicians in New York than anywhere else, and consequently more opportunities for the greater number of students. The smaller cities like Philadelphia, Baltimore, and Boston to be sure have most excellent schools and a limited num-

ber of teachers with a national reputation. But they have fewer hospitals and consequently cannot give the amount of practical instruction to the undergraduate which can be offered in New York, and the opportunities for an interne position are far less. The greater part of the class must go elsewhere for that portion of its education. That they are more or less handicapped in the competition is evidenced by the fact that a number of examiners in friendly conversation with our faculty mentioned their disappointment at the results of the practical examinations offered by students from out of town and took occasion to commend the excellence in this respect of the Cornellians. As this coincided with the experience of the medical faculty nearly all of whom are members of some examining board, it was very gratifying. The Medical College prides itself on the thoroughness and completeness of its practical instruction. And the value of this is manifest. Not every one can obtain a hospital appointment. It is no disgrace to fail. But after passing through a course like that offered by this University the graduate has a very excellent working knowledge of his profession and can be reasonably certain of success.

To reiterate the lessons to be drawn from the experience of this the first class in the Medical Department which has obtained both the A. B. and M. D. degrees from Cornell: the value of a thorough general education prior to or in preparation for the study of medicine cannot be overestimated. That it fits one pre-eminently for judging the relative importance of all subjects is almost an axiom. That it prepares the fortunate possessor to survive in a competitive technical examination is clear from this year's records. Those

who had the A. B. degree obtained the highest places and those who had more or less of the Arts course came next in order.

Those, however, who entered the Medical Department with only an ordinary high school preparation with very few exceptions did not fare so well.

As regards the comparative standing with students from other schools it need only be stated that Columbia alone received more appointments. This is necessarily so when the numbers in the graduating class of each institution are taken into consideration. Columbia is said to have over 200 while Cornell has but fifty-six. In the practical as distinguished from the theoretical portions of the examinations our students are conceded to have distinguished themselves. This means much for those who cannot obtain or do not desire a hospital appointment and it also has a bearing on the comparative merits of the medical schools in other cities. In a very few places outside of New York or the great European centers are there the opportunities for bedside instruction in all the phases of the physician's art which are offered in our Medical College. As a natural result our men proved themselves superior to their competitors in those lines which are most essential for success in after life.

SONGS OF CORNELL. WORDS AND MUSIC.
