

CORNELL ALUMNI NEWS

VOL. IV.—No. 31.

ITHACA, N. Y., WEDNESDAY, MAY 21, 1902.

PRICE TEN CENTS

BASEBALL VICTORIES.

The Team Defeats Manhattan, Michigan, and Carlisle.

One of the best games played on Percy field in some time was the one played there last Thursday afternoon, when Cornell won from Manhattan college, of New York, by a score of 5 to 3 in a ten inning game. Manhattan had already won from Yale and Fordham, and a good game was assured, but no such brilliant one was expected. Bristol pitched a steady game throughout the ten innings, striking out five men and allowing but three bases on balls. Cornell's victory was due to her timely hitting in the tenth inning. For Cornell, Lewis and Ferguson played the strongest game, and Mullin and Rock were the best for Manhattan.

Cornell began the scoring in the second inning, when, after Drake had been put out at first, Ferguson made a clean hit to McPhillips who threw wild to first and Ferguson scored on the error. Costello and Bristol both flied out finishing the inning. Manhattan was unable to score.

In the third inning, Brewster flied out, Brown went out at first and Lewis made a hit but was left on base. Manhattan had a good chance to score after one man had been put out. Kearns hit to center field and Cotter made first on an error, but they were both left on bases when the next two men flied out.

In the fifth inning, Cornell again scored, Tydeman making the circuit of the bases on a wild throw to first by Cohalan after one man was out. Drake and Ferguson made the other outs for the side. Manhattan started out by McPhillips making first base on balls, but he was put out at second on a fielder's choice, Cohalan getting his base. Mullin then drove out a long fly which Brewster missed. This scored Cohalan and sent Mullin to third. Rock flied out to center field scoring Mullin on the throw in. Duff got his base on balls and stole second, but was left there when Kearns got out at first. Score—Cornell 2, Manhattan 2.

After the fifth inning, Manhattan never sent more than three men to bat in any inning and was put out in one, two, three order.

Cornell did not score again until the tenth, when, after Chase flied out to center field, Brewster made a two base hit to the club house. This was followed by a like one by Brown scoring Brewster. Then Lewis hit a fast ball through second which the short stop missed and scored Brown. Whinery flied out, and Tydeman hit to center field but was caught at second retiring the side.

The batting order of the teams was as follows:

CORNELL					
	R	H	PO	A	E
Brewster, 1 f	1	2	2	0	1
Brown, 2 b	1	1	1	1	0
Lewis, s s	1	1	3	2	0
Whinery, c	0	0	7	1	0
Tydeman, c f	1	1	3	0	0
Drake, r f	0	0	2	0	0
Ferguson, 1 b	1	9	2	0	0
Costello, 3 b	0	1	2	0	0

Summary—Earned runs, Cornell 3, Manhattan 1, two-base hits, Brewster, Brown, and Mullin; first base on errors, Cornell 4; first base on balls, off Bristol, 3; off Callahan, 2; struck out, by Bristol, 5; by Callahan, 2; wild pitch, Bristol; stolen bases, Brewster, Duff; double play, Ferguson, to Bristol, to Costello; left on bases, Cornell 6, Manhattan, 5; time of game, 1:45; umpire, Hoagland, Auburn.

On Saturday the team won from Michigan in a rather poorly played game by a score of 10 to 9. Henderson, who was in the pitcher's box for Cornell, allowed four men their bases on balls in the first five innings. In the sixth, Henderson was replaced by Bristol, but, when he made an error, two wild pitches, and hit one batter in the first inning he pitched, it looked bad for Cornell. After the sixth inning, he steadied down and pitched a good game winning his own game in the ninth by a clean three-base hit to deep right. The game was marred by the many costly errors made by both teams, and was far below the showing made on Thursday. At times the fielding was sharp, but all the men played an erratic game. Cornell won by her opportune batting and Michigan's many errors. For Michigan, Utley pitched a good game but was given very poor support.

There was no scoring in the first two innings, but in the third Cornell started the scoring. Henderson made first on an error, and Brewster got a base on balls. Brown advanced them each a base on an infield grounder but he was put out at first. A two base hit by Lewis brought in Henderson and Brewster. Whinery was put out at first and Tydeman made a two-base hit scoring Lewis. Ferguson went out at first retiring the side. Cornell 3, Michigan 0.

In the fourth, Michigan started off by Utley's getting to first on an error of Ferguson's. Killian then made a clean single, but was caught trying to steal second and Utley scored. Beurmann was caught at first but Campbell made a hit scoring Killian. The next man up was struck out. Drake, for Cornell, led off with a hit, Henderson got his base on balls and went to third when Brewster hit and scored Drake's run. Brown made first on a fielder's choice, Henderson being put out at the plate. Lewis was caught at first retiring the side. Cornell 4, Michigan 2.

In the next inning Michigan, by making two hits, aided by two of Cornell's errors and some very clever base running tied the score. Cornell 4, Michigan 4.

In the sixth inning Bristol took Henderson's place, but through loose

REUNIONS FOR THIS YEAR.

Announcements for the Quinquennial Gatherings of Six Classes.

We publish below the official call of the classes of '72, '77, '82, '87, '92, and '97, to the regular quinquennial re-unions to be held in Ithaca this spring. If there are any other classes planning reunions for this year, the News requests that they send in similar announcements.

CLASS OF '72.

Arrangements for the third decennial reunion are being made by Professor C. L. Crandall, the only resident member. The date and place of the meeting and other particulars, will be announced in the News as soon as they are settled.

CLASS OF '77.

Owing to the small size of the class, and the small number of members attending the re-union in 1897, it is considered inadvisable to attempt meetings oftener than every ten years. The resident members, Assistant Treasurer C. B. Mandeville and Professor S. H. Gage, are accordingly making no preparations for a re-union this June. If enough members attend the Commencement exercises, however, to make an informal re-union desirable, such a gathering will be arranged. Those intending to be in Ithaca at the time are requested to notify either of the resident members.

CLASS OF '82.

The News has as yet been unable to secure any information regarding a reunion of the class. The only resident member, Miss Mary Fowler of the library staff, is making no plans for a gathering. Several other members have been communicated with in hope of securing the desired information, and anyone able to give it is requested to notify the editor at once.

CLASS OF '87.

TO THE MEMBERS OF THE CLASS OF 1887, CORNELL UNIVERSITY:

In obedience to a resolution passed by the Class of '87 at the banquet held in 1897 to celebrate its tenth anniversary, directing me to arrange for a fifteen-year re-union of the Class in Commencement Week, 1902, it gives me pleasure to announce that a local committee, consisting of W. J. Romer, H. J. Ryan and V. A. Moore, all residents of Ithaca, has been appointed; and that it is making arrangements for our coming Re-union. A Re-union banquet will be held on Wednesday, June 18th. It is very desirable that as large a number of the Class as possible be present. It is also hoped that you will attend the Alumni Luncheon given by the Trustees on Commencement Day.

The fifth-year Re-unions of the Classes at Cornell have come to be a most happy feature of Commencement Week. In recent years the attendance at these Re-unions has been large and enthusiastic. No Cornellian should fail to make every effort to come to his Class Re-union, attend the Class banquet, and occupy

a seat, at his Class table at the Alumni banquet given by the University immediately after the Commencement exercises.

Kindly advise the committee as soon as possible whether you are coming or not; if impossible to attend, write a letter that may be read at the banquet. A programme of Commencement events will be sent you later.

Faternally yours,

H. M. LOVELL,
President Class '87.

CLASS OF '92.

The class of '92 is making an extraordinary effort to have as large a representation at its decennial reunion as possible, and accordingly return postal cards have been sent to all who have at any time been members of the class. These cards request that all who will be able to attend the reunion, signify their intention of so doing to either S. Carroll Root, chairman, 44 Wall street, New York city; or Charles D. Bostwick, secretary, Ithaca, N. Y. Over eighty have already expressed their intention of attending. A complete roster of the class will be published, giving the present addresses of all the living members.

The committee in charge is making extensive arrangements for the entertainment of those who will attend, and a successful reunion is assured.

CLASS OF '97.

The class of '97 will hold its first reunion Wednesday, June 18, 1902, (the day before Commencement). All members of the class are expected to be present and are requested to register at the Alumni Bureau, Trophy Room, Barnes Hall, immediately on arrival. Detailed information will be given there.

G. N. LAUMAN, '97,
For the Reunion committee.

Plans for an American Henley.

About two years ago the American Rowing Association was formed for the purpose of bringing about the establishment of an American Henley regatta. At a recent meeting in New York city, the course for next year was definitely decided upon. It was felt that the course chosen should be at some central point which would be easily accessible. The Scuykill river course at Philadelphia was finally decided upon, although when the association was first formed, the New London course seemed to be preferred.

Representatives were present from several of the American rowing colleges. Through the involuntary absence of Professor Durand, the advisory member of our navy committee, Cornell was not represented at the meeting, and accordingly had no part in the transactions. If, however, Cornell should later give adherence to the present plans, Professor Durand states that it would not necessarily lead to the giving up of the Poughkeepsie regatta, although it might do so. The colleges which have already endorsed the plan, have, it is understood, given their adherence only to such an extent as their previous engagements and interests warranted.

SYRACUSE MEETING.

Alumni of that City Hold Their Annual Banquet.

On Saturday, May 10th, at the Century Club, Syracuse, the alumni of that city held their annual banquet. The event served to bring together sixty Cornellians from classes early in the history of the University to those of later days. Prominent among them were President Schurman, Professor John Edson Sweet, of Syracuse, who was the first head of Sibley College, and Justice Frank H. Hiscock, '75, of the New York Supreme Court. The banquet was the third one held by the Cornell Club of Syracuse, and was the most successful of the three.

After the menu had been disposed of, a sufficient number of college songs rendered to satisfy the enthusiasm of the gathering, and a standing toast to President Schurman; Justice Hiscock, president of the club, concluded with a witty resume of the difficulties attending the selection of a date for the banquet by saying:

"It is a source of just pride to all of us that we can look around and see more than sixty here to do honor to Cornell, representing the Cornell sentiment and constituency of Syracuse. It is fitting that the Cornell spirit should run high in the city from which went the man in whose brain was finally worked out the plan from which Cornell University resulted. Others may have given aid in a more material way; but we cannot but recognize that it was Andrew D. White, afterward the first president of the University, who, when sitting in the State Senate enabled Ezra Cornell to found the great institution. There has come in the line of succession one we feel is worthy to wear the mantle he laid down."

After a tribute to Dr. Schurman in his work in this country and the Philippines, "Everywhere bearing forward the standard of Cornell," Justice Hiscock introduced him as the principal speaker of the evening. Dr. Schurman's remarks were devoted to a careful and interesting description of the present condition of the University, as compared with that of some time ago. He summed up the situation by saying "Wherever you stop and look at the University, everything is of the sunny and pleasant character which stirs the optimism characteristic of our people."

At the conclusion of Dr. Schurman's address, President Hiscock paid him a tribute by referring to him as the man who has guided the University in its recent great strides of progress, at the same time assuring him of the loyalty existing toward him in the hearts of all Syracuse alumni. Professor John Edson Sweet stirred great enthusiasm by a witty speech in which he gave some amusing reminiscences of Cornell's early days. Then in serious vein he spoke glowingly of the success which has attended Sibley graduates as captains of industry and inventors.

The Cornell men who attended the banquet were: Justice Frank H. Hiscock, Edward N. Trump, William K. Pierce, Dr. Roderick C. McLennar, S. F. Belnap, Police Justice Francis B. Gill, Dr. Charles Walsh, Ernest I. White, Charles B. Everson, William P. Baker, Frederick Walsh, Charles E. Shinaman, William Rafferty, Henry Walters, David Costello, S. J. Kelly, Charles P. Ryan, Frederick W. Field, Leonard C. Crouch, Louis W. Emer-

ick, Harry Davis, John B. Tuck, G. G. Menger, George W. O'Brien, Selden E. McClusky, W. R. Knapp, Allan R. McFarland, William M. Butler, W. S. Dunning, Justin A. Seubert, jr., C. S. Tracy, W. Judson Smith, Andrew S. White, Frederick H. Johnson, John Wilkinson, Louis P. Lang, Simon G. Schlachter, G. B. Becker, Oliver B. Burden, Chester O. Clark, George L. Baldwin, James Tracy, Austin J. McMahon, Lyndon Tracy.

UNIVERSITY LECTURES.

Several Interesting Lectures of the Past Week.

During the past week, the student body have had the opportunity to listen to four lecturers, each of whom covered a distinctly different field. For one of these, Professor Charles A. Chandler, the president of the New York College of Pharmacy, gave an interesting lecture on "Electrolytic Processes at Niagara Falls." He is one of the great chemists of the present day, having been, at one time, head of the chemical department at Columbia. He has also served as president of the American Chemical Society, and has been honored in various ways by the chemists of to-day. His lecture, dealing with a question of such great importance, was delivered before a large and appreciative audience.

The second lecture was delivered by Professor Charles McLean Andrews, of Bryn Mawr college. His subject, "The Last Thirty Years of European History," was along the line of his life's work, and was treated in a masterly manner. He has held a professorship of history at Bryn Mawr for the past twelve years, and during this time has been the author of several historical treatises, among which was a two volume work entitled "The Historical Development of Modern Europe." In his lecture he sketched the history of Europe for the past generation.

"The last thirty years of European history," he said, "forms a period distinct from that which precedes it. After 1870 political and constitutional consideration ceased to be of such prominence, the general character of the period becomes social, economic and commercial. The first part of the period was one of a German predominance, in which Bismark bound together Germany, Austro-Hungary and Russia, in a defensive league against France. Then came the Dual Alliance with Austria. In 1883 the Triple Alliance was formed which has lasted until the present.

The internal influences which existed until 1883 were different in each country. In France there was the completion of the work of establishing the Republic commenced in 1870; Austria worked out the problems connected with the form of dual monarchy, and Italy became a united state.

During the first part of the period, the economic interests did not pass beyond the boundaries of the state, but in 1881 the countries themselves began to look abroad for colonies."

Last Friday, Mr. Carl E. Myers, of Frankfort, N. Y., lectured on "Aeronautics." For the past twenty-five years he has been interested in the problem of aerial navigation, and, at various times has constructed appliances that have successfully sailed through the air. His lecture was all the more interesting because of his interesting personal reminiscences, many of which he included within his lecture. He exhibited a

GIMPY SHOES

for

GAMEY DRESSERS

COLLINS, HERRON & VORHIS

"sky cycle," a machine consisting of a bicycle seat mounted on a light rigging, supplied with pedals which worked a canvass propellor, the entire structure to be floated by a balloon. He has successfully used this machine, and intended to give an exhibition; but owing to the limited facilities for inflation, he was unable to carry out his plan. With the aid of lantern slides, he pictured the different styles of air ships, explaining the difficulties met in their construction and showing how these were met or obviated. His lecture was delivered before a room crowded with interested students.

Last Tuesday, Professor Gustaf E. Karsten, Ph.D., of the University of Indiana, lectured on "Goethe's Faust: the Pre-Weimarian Plan." Professor Karsten is a native of Germany and received his education at Leipzig, Konigsberg, Heidelberg, and Tübingen. He also received a Ph. D. from Freiburg. When called to his present position as professor of Germanic languages in the University of Indiana, he was teaching Germanic and Romance philology in the University of Geneva, Switzerland.

Professor Karsten reviewed at some length the plot of the play and then proceeded with its history. "Goethe," he said in part, "was not the originator of all the details of 'Faust', but got many of his ideas from a story first published in 1587. This story was first translated into English and dramatized by Marlowe. It was then brought to Germany where it was popular for many years,

but finally died out when the popular taste turned to French literature. Goethe conceived his idea of writing a version of 'Faust' when a mere lad, and this seems to have been the main work of his life. He followed out this idea consistently, and when in old age, this masterpiece was first published. Throughout the entire period during which he was at work on this, he often spoke of the difficulty of following out a work conceived so long before, but at the same time stated the main plan was clear in his mind. The lecture was one of the most instructive of the week.

THE ALUMNI.

One purpose of THE ALUMNI NEWS is to keep Cornell men informed about one another. Every Cornell man, therefore, is invited to contribute to this column news concerning himself or any other student, and every contributor should remember that in sending news items he is conferring a favor upon other Cornellians.

'76, A. B. Theodore Stanton contributes an article on "M. Waldeck-Rousseau and the French Elections" to a recent number of the *Independent*. He presented a large collection of books published in Europe to the University Library last week.

'77, B. Agr. Frederick M. Pennock is a government inspector of agricultural schools in Porto Rico.

'78, B. M. E. Professor Albert W. Smith, absent from Stanford university on leave, and at present in the employ of the Westinghouse company, spent some time in Ithaca recently inspecting the machinery of the Remington salt works. He was the guest of his father-in-law, Professor I. P. Roberts.

'84, B. C. E.; '99, C. E.; '01, C. E. Edward C. Murphy, '84, Wager Fisher, '99, Arthur Adams, '01, and William E. Wilson, '01, contribute discussions of a paper on hydraulic experiments by Professor G. S. Williams, to a recent number of the *Transactions* of the American Society of Civil Engineers.

'87, B. S. Robert T. Hill, of the United States Geological Survey, was one of the members of the relief party sent to Martinique by the government. His part of the work was an investigation of the volcanic conditions and causes of the catastrophe.

'89, A. B. John C. Bliss, New York State inspector of training schools, is the subject of a biographical sketch in the May number of *American Education*. A photograph accompanies the article.

'90, E. E. Sherwood J. Larned is general superintendent of the Chicago Telephone company.

'90, B. S. in Arch.; '01, E. E. William A. Stevens, '90, is connected with the architectural department, and Paul G. Chace, '01, with the plumbing and electrical department, of the architectural business of D. H. Burnham & Company, 1142 Rookery building, Chicago.

'90, E. E. William E. Smith is electrical engineer at the New York office of Westinghouse, Church, Kerr & Company.

'90, E. E. Edward H. Waldo is an instructor in electrical engineering at the University of Pennsylvania.

'90, E. E. John A. West, Jr., has a position with the Bradley Engine company, Peoria, Ill.

'90, M. E. Charles L. Heisler has just invented a new pumping engine. He is meeting with great success in his inventive work. His locomotive for heavy grades is now in use on many roads.

'90, A. B.; '91, B. S. in Arch. Charles S. Deuchler, '90, and Edward E. Waful, '91, are the members of the firm of Deuchler & Waful, contractors, at 1004 Teutonic building, Chicago. They are doing a large amount of heavy construction in the building business.

'90, B. S. in Arch. Frederick F. Sewall is head draughtsman in the architectural office of Trest & Adler, Auditorium Tower, Chicago.

'90, B. S. in Arch. Edwin A. May has charge of one of the departments of the American Radiator company, 129 Dearborn street, Chicago.

'91, M. M. E. Daniel Royse is secretary of the Windsor & Hatfield company, publishers of *Brick*, the *Street Railway Review* and *Steam Engineering*. He acts as managing editor for all these publications.

'91, LL. B. Edward B. O'Malley has been mentioned in the Buffalo newspapers as a suitable candidate for the district attorneyship at the next elections.

'92, E. E. Harrison H. Wood is now teaching physics and chemistry at the South Side high school, Pittsburgh, Pa.

'92, B. S.; '93, LL. B. Charles R. Kreidler, of Rochester, is publishing a new system of monthly citations of New York law decisions, by which attorneys are furnished each month with all cases cited in the decisions reported during the previous month, giving the point upon which the citation is made, and where a decision is on an appeal from a previously reported decision, the disposition made on such appeal. The work thus far has been very well received by members of the legal profession throughout the state.

'93, M. M. E. The Fidelity and Casualty company of New York city, of which William H. Boehm is superintendent, is advertising the unusual business of insuring against damage from bursting fly wheels.

'93, B. S.; '94, E. E. Ernest V. Stebbins is manager of the Cleveland office of the Electric Storage Battery company.

'93, E. E. Christian J. Toerring, Jr., is with the C. J. Toerring company of Philadelphia, makers of arc lamps.

'93, E. E. George E. Turner is president of the Keystone Engineering company, of Pittsburgh, Pa.

'93, E. E. Robert B. Williamson, principal of the electrical engineering department of the International Correspondence schools of Scranton, Pa., is joint author of Franklin and Williamson's "Alternating Currents."

'94, E. E. Quincy A. Scott is in the electrical engineering department of the Westinghouse Electric and Manufacturing company, Pittsburgh, Pa.

'94, M. E. Louis E. White is auditor and purchasing agent for the Gale Manufacturing company, Albion, Mich.

'95, E. E. Harry Zimmerman is manager of the Zimmerman Flying Machine company, of Fremont, Ohio. He holds a number of patents, especially for improvements on scientific kites, which his company manufactures.

'95, E. E. Manceve C. S. Mott is superintendent of underground construction for the Bell Telephone company of Buffalo.

'95, M. E. Waller Taylor is with the Llewellyn iron works, of Los Angeles, Cal.

'95, E. E. Frank L. Walsh is a substitute in the United States railway mail service, and is located at Springfield, O.

'95, M. E. Harry C. White is a salesman and mechanical engineer for Jenkins brothers, 17 Pearl street, Boston.

'95, A. B. Eloise L. Osmond is teaching in the Stamford seminary, Stamford, N. Y.

'96, M. M. E. Arthur L. Rice is assistant to the secretary of the American Society of Mechanical Engineers, in New York city.

'96, B. S. Mrs. Mary Rogers Miller is the author of "The Brook Book" which was published last week by Doubleday, Page & Company. The work describes the changes undergone by brooks throughout the course of a year.

'96, Ph. B. Carlotta S. Maury's thesis on "The Oligocene of Europe and America," which she has presented for her doctor's degree, is being printed as No. 15 in the *Bulletins* of American Paleontology.

'96, E. E. Clement A. Copeland, who was associate professor of electrical engineering at Stanford university up to last June, is now with the Edison Electric company of Los Angeles. He acts as assistant superintendent, and as superintendent of the distributing systems.

'96, E. E. George H. Whitfield is a division superintendent for the United Railroads of San Francisco.

'97, Ph. B. Oscar M. Wolff has formed a partnership with I. S. Rothschild for the practice of law under the firm name of Wolff & Rothschild at 1310 Security building, Chicago.

'97, A. B. The engagement is announced of Vesta Vernon Haywood to Albert Evans Milliken, formerly of the Ithaca Conservatory of Music.

'97, A. B. Nan Gilbert Seymour was one of the three successful candidates in a recent competitive examination for positions as internes at the Methodist Episcopal hospital, Philadelphia.

'98, M. E. William W. Hubbard is assistant to a division engineer of the Wisconsin Central railroad. His address is 38 East 4th street, Fond du Lac, Wisconsin.

'97, B. S. The engagement is announced of Lucius C. Fuller to Miss Greta Patterson of Pittsburg. The marriage will take place June 24.

'98, M. E. Frederick W. Midgeley is an engineer with the Otis Elevator company, Yonkers, N. Y.

'99, M. E. James F. Goodman is at present located at Miami, Indian Territory.

'99, M. E. George H. Stanion is general foreman of the line department of the Brooklyn Heights Railroad company, Brooklyn, N. Y.

'00, M. E. Clarence B. LaMont is now assistant port superintendent of the river division of the "White Pass and Yukon Route," and is located at White Horse, Yukon Territory, Canada. The company with which he is connected operates a fleet of eighteen large shallow draught boats on the Yukon river.

'00, M. E. John P. Satterlee is now at Durham, N. C., engaged in superintending the construction of a street railway and powerhouse.

'00, M. E. Ben M. Pettengill is junior member of the firm of W. B. Pettengill & Son, of Holley, N. Y., manufacturers of evaporated fruit and cider vinegar.

'00, M. E. Harold C. Crouch, who is now engaged in engineering work in Oswego, has been appointed head of the department of mechanical engineering at the University of Colorado at Boulder, Col.

'01, A. B. Arthur J. Sweet, who is now studying at the Massachusetts Institute of Technology, has been made a member of the editorial board of the *Tech*, the undergraduate publication.

'01, A. B. Mary E. Laing has been appointed instructor in pedagogy at Wellesley college.

'01. The following corrections to the class directory are noted: Walter S. Crandell, lawyer, 25 Broad street,

New York city; Levin J. Houston, Jr., resident engineer Canadian Pacific railroad construction, Bank of Hamilton, Winnipeg, Manitoba, permanent address, Stockton, Worcester county, Maryland.

Obituaries.

EZRA CORNELL.

Ezra Cornell, E. E., '87, died at the home of his father in Forest Park, Ithaca, Tuesday afternoon, May 13. His death resulted from tuberculosis, from which he had been suffering for a number of years.

The deceased was a grandson and namesake of the founder of the University, and is said to have inherited in a marked degree the strong characteristics of his grandfather. He was born in Ithaca in 1864, and received his education in the public schools of the city and at the University. After graduation he took up the practice of electrical engineering, and was meeting with a degree of success which gave promise of a brilliant future when he was suddenly stricken with the disease which eventually caused his death. He was obliged to give up his professional work and devoted himself to the raising of fancy poultry. In this he was singularly successful and his exhibits at the poultry shows soon won him a wide reputation. He also took a prominent part in the business interests of Ithaca, holding among his various positions, the presidency of the Cornell Incubator company, and a directorship in the Ithaca Street Railroad company.

WILLIAM O. PARK.

On Tuesday, May 6, William Osborne Park, ex-'94, died at his home in Atchison, Kansas, of pneumonia. He had been seriously ill for some time, but his death was not expected until shortly before its occurrence. He is survived by a wife and three young children.

The deceased was a member of the electrical engineering class of 1894, but did not complete the course. He was a member of Sigma Phi fraternity. On leaving the University he made Atchison his home, and became connected with the Atchison Savings Bank, of which for several years he was vice-president. He also engaged in stock raising, and at the time of his death was successfully managing a large ranch near Netawaka, Kansas.

Weddings.

SNAITH—SPORBORG.

At eight o'clock on Monday evening, May 12, at the home of the bride's sister, Mrs. E. Austin Barnes, in Syracuse, occurred the wedding of Miss Miriam A. Snaithe formerly of Ithaca, and Henry N. Sporborg, M. E., '99, of Gloversville, N. Y. The ceremony was performed before about forty guests, and an informal reception was held immediately after. The groom's brother, W. L. Sporborg of Gloversville acted as best man, while Miss Florence VanDuesen of New York was bridesmaid. Mr. and Mrs. Sporborg sailed Wednesday on the Germanic for Rugby, England, where they will make their home, Mr. Sporborg having accepted a position as engineer of the railway department of the British Thomson Houston company. The bride was at one time a nurse in the Cornell Infirmary while the groom is a graduate of Sibley College and a member of Sphinx Head.

THE SALE OF SEATS FOR THE OB-
SERVATION TRAIN HAS RESULTED IN
THE DISPOSAL OF TWENTY-FIVE OF
THE THIRTY CARS COMPOSING THE
TRAIN. THIS MEANS THAT THERE
ARE PLENTY OF DESIRABLE SEATS
LEFT, AND BY APPLYING IMMEDIATE-
LY, THE ALUMNI CAN BE ACCOM-
MODATED. ALTHOUGH NONE HAVE
BEEN ESPECIALLY RESERVED FOR
THEM, THEY CAN SECURE SEATS BY
COMMUNICATING WITH THE LEHIGH
VALLEY CITY TICKET OFFICE, STATE
STREET, ITHACA, N. Y. THE SEATS
ARE \$1.50 EACH. IN VIEW OF THE
LARGE NUMBERS EXPECTED, ALL
THOSE WHO EXPECT TO ATTEND THE
RACES ARE URGED TO ATTEND TO
THIS MATTER AT ONCE.

THE LIBRARY QUESTION.

We have already called attention
to the resolution passed by the Uni-
versity Faculty at its April meeting
by which it requested the Library
Council to enlarge the privileges
now enjoyed by the undergraduates
of drawing books from the Univer-
sity Library for home use. Since
that action was taken, Librarian
Harris has prepared a statement
which he has sent to all the members
of the University Faculty, in which
he has set forth his views on some
of the questions involved in this re-

quest. Mr. Harris states that "at
the opening of this University it was
deliberately decided, after full consid-
eration, by men of wide and varied
experience, that the University Li-
brary should be, primarily and main-
ly, a reference library, and that it
should not be a circulating library
for students." From a comparison
of the history of the Cambridge Uni-
versity Library, which lends its
books freely, with the history of the
Bodleian Library, a reference library,
and a study of the practice and ten-
dencies of the university libraries of
Harvard, Chicago, Columbia, Cali-
fornia and Johns Hopkins, Mr. Har-
ris concludes that the tendency is in
the direction of restriction, rather
than extension of circulation. It is
his firm belief "that general extension
of circulation will seriously interfere
with the efficiency of the library for
the purposes of study and investiga-
tion and will be detrimental to its
growth and prosperity, for all li-
brary experience teaches us that the
needs of scholars, students, and in-
vestigators cannot be satisfactorily
served by a circulating library."

Mr. Harris does not argue, how-
ever, that the privileges now enjoyed
by our undergraduates of withdraw-
ing books from the University Li-
brary for home use should be cur-
tailed. He realizes that the circula-
tion is at the present time too
restricted. He states that he has
always favored any policy which
will provide greater facilities for
reading and study on the part of
students, and he is willing that the
circulation should be extended, pro-
vided the extension does not diminish
the present usefulness of the library
as a working library. He is prob-
ably not willing, however, to have
the extension carried so far as some
of the supporters of the Faculty reso-
lution would like to have it carried.

The problem seems to be to deter-
mine how greater opportunities for
general reading on the part of the
undergraduates can be afforded with-
out interfering too seriously with
the efficiency of the University Li-
brary as a working library. Mr.
Harris's solution of the problem con-
sists in the "formation of a separate
circulating library, provided the
funds for doing so can be obtained.
And even if no funds are available
for establishing at once a large circula-
ting library, we may make a fair
beginning by setting aside from the
general library the duplicates, or
practical duplicates, of general and
standard works, and also a large
number of such books; not dupli-
cates, as are evidently not needed in
the direct work of instruction, and of
such a character as to be easily re-
placed in case of loss. These would
make a good foundation for a circula-
ting department and could be
placed in a separate room, on open
shelves, to which the students may
go and make their own selection of
books for general reading and cul-

Manufacturers—LLOYD & CO., 3 Spur St., Leicester Sq., London

ture. A collection of several thous-
and volumes could be thus brought
together at once, and the annual
expenditure of one thousand dollars,
recommended by the faculty for the
purchase of duplicates for circulation,
would soon build up an excellent cir-
culating library without destroying
the character of the general library
as a reference library, or interfering
with its usefulness for university pur-
poses. So far as the cost of admin-
istration is concerned this plan
would be less expensive and much
safer than an attempt to make the
general library a circulating library
and to indicate in any satisfactory
way what books in it should not be
allowed to circulate. Of course any
extension of circulation, in whatever
way it is managed, means additional
expense, not only in administration,
but, as a consequence of the inevit-
ably greater wear and tear of books
which circulate, also in rebinding and
replacement of injured and worn-out
books, but it may be fairly assumed
that the benefits to be conferred upon
students by giving them greater op-
portunities for general reading will
be well worth the additional cost,
when this can be done without im-
pairing the usefulness of the library
for scholarly purposes."

At a recent meeting of the Library
Council the Faculty resolution was
discussed. By reason of the fact
however, that a number of the
Faculty members have expressed a
desire to be given an opportunity of
appearing before the Council and
presenting their views, it was decided
to defer action on the matter until
October. We understand, also, that
the members of the Council regard
the questions involved as most im-
portant and such as deserve their
most careful consideration. In their

consideration of these questions they
will undoubtedly give great weight
to the views entertained by Mr. Har-
ris, whose connection with the Uni-
versity Library from 1873 to the
present time entitles whatever opin-
ions he may have on the matter to
the greatest respect.

CAMPUS NOTES.

Current Happenings of Minor Importance and Present Interest.

As matters now stand, Pennsylvania will in all probability enter for the Junior race on the Schuylkill, three men who last year rowed in her shell at Henley. As was stated in last week's NEWS, matters are complicated by the absence of any distinct agreement which might furnish a basis for protest. The navy management has made a clear and emphatic exposition of its stand in the matter, but beyond this Cornell will take no further action. It is understood that Columbia, likewise, has taken a similar position. Pennsylvania, therefore, in her final action in the matter will be guided by her sense of honor and by her interpretation of the eligibility rules.

On Friday night, May 16, the fifth and last of the annual series of military balls was held in the Armory. The date of this final dance was somewhat later than usual, as it has been once postponed. The series this year has been very successful, and has afforded an opportunity for relaxation that many have taken advantage of throughout the winter and spring. The committee made special efforts this time to make the dance especially enjoyable: the armory was prettily decorated, and excellent refreshments were served. The dance was well attended, though there were not as many present as was expected. A very pleasing selection was made in the choice of music, frequent encores being called for. Mrs. Waite, Mrs. Crane, Mrs. Olmstead, and Mrs. Van Ness were the patronesses on this occasion. The entire series has been well attended, and committee in charge has been very successful in furnishing such enjoyable dances that compare so well with similar ones of past years.

The members of the senior class introduced a decided novelty when they decided to celebrate the day before they began wearing the cap, by spinning tops, playing marbles, and rolling hoops. Accordingly, the periods between the hours, indeed the whole morning of May 14, witnessed a sight never before seen at Cornell. Groups of seniors were gathered all over the campus, some playing marbles, and others acquiring the art of top spinning. In another place, a group of seven or eight would be seen tearing over the Campus, driving their hoops over stones and gutters, dodging the onlookers who sometimes tried in vain to avoid their mad onrush. One of the most exciting scenes was on the green in front of Boardman hall. There a large ring was formed with some unlucky candidate for a degree penned in the centre, whose wild efforts to break through the line were often in vain. Although the seniors were the only ones to join in these jollifications, the spirit of the day was inbred in all who gathered to enjoy this outburst of spirit. "Spinning day" formed a remarkable contrast with the following morning, when many of the class appeared in cap and gown. The number wearing the cap, however, was not as great as desired, partly because of the insufficient supply; the women with but few exceptions, appeared in the complete academic

costume of cap and gown. It is the intention of the senior class to wear the cap from May 15 to the end of the year, and the complete costume on Commencement and Class Day.

On May 16th an interesting and amusing base ball game was played between the Old Ithaca nine and the High School team. The Ithaca team was the remnants of an old nine that played championship ball in the early seventies, and, assisted by Coach Jennings at short, Superintendent Boynton and several others, the team succeeded in trouncing its younger opponents to the tune of 8-3. Contrary to expectations, the old timers played a good, steady game, making many sensational plays and greatly surprising those who expected a farce exhibition. About a thousand witnessed the game, the proceeds of which netted over \$125 for the treasury of the High School athletic association.

The Ithaca preparatory schools have been supporting, with more or less success, their respective crews, track and base ball teams, many of which have been very successful.

There has just been completed, in the workshops of Sibley College, a second large underwriter's firepump which will be employed as a part of the equipment of the department of Experimental Engineering, and, being placed in the fire-proof house in the court of Sibley College, can be used for a fire pump should occasion compel. The first of these two pumps, it is thought, will be placed in the gorge as an emergency pump, either for general water supply or for use in case of fire and will constitute a part of the system which is expected presently to be constructed. Both of these pumps were made by the upper classmen of Sibley College, and exhibit excellent workmanship.

Christian Association Report.

The successful work of the Christian Association is shown by President W. C. Geer's report for 1901-2. The attendance at the Bible study classes has been larger than ever before, two of the courses being under the direction of Professors Powers and Hibbard. A series of addresses was given by Dean King, of Oberlin, and a course of lectures was also delivered in which President Schurman, Professors Schimdt and Burr, of Cornell, Riggs, of Auburn, and Curtis, of Chicago, participated.

The finances of the association are on a very favorable basis. For the past four years, the floating debt has been steadily reduced till September 1, 1901, it stood at \$150. This year, not only will all running expenses be met, but is hoped that the last of the indebtedness will be paid off. From August 1, 1901, to April 1, 1902, the receipts were \$1516.42 and expenditures \$1433.97. The estimated liabilities and receipts for the rest of the year are about \$700.

In regard to membership, the roll contains the names of 434 men, 331 of whom are active members. There are 107 members in the woman's department, of whom but 11 are associate members. The association will start the next year with a constantly opening field of usefulness, and with the assurance that it is now better able to face many of the problems before it than at any recent time.

PRINCETON TRACK MEET.

Cornell Wins Unexpectedly Over Princeton at Albany.

Last Saturday at Albany, Cornell defeated Princeton in their fourth annual track meet by a score of seventy-seven to forty. Much against the prevailing sentiment at the University, the Cornell team completely outclassed the Tigers, who gained but one first place in the track events. The team proved to be very evenly balanced, and for this, in view of the gloomy prospects in the early part of the season, all consideration is due to the excellent coaching and training of Mr. Moakley. A week before the meet, it seemed as if several of our best men would be unable to participate. Sears, Frederick, and Porter crippled by sprained ankles, and Captain Young was incapacitated by the "sprinter's breakdown." But under the watchful care of the trainer, Sears, Porter, and Young were able to be entered. Sears proved himself of especial value to the team. In view of his constant and really magnificent work, it is a great misfortune that this runner will not be able to do further work this season. Frederick at the last moment was not considered strong enough for the pole vault and accordingly Cornell made no entry for this event, thus giving Princeton a handicap of nine points.

The meet was held in the capital city at the Ridgefield Park grounds, under the management of the Albany Y. M. C. A. This place was found available for a dual meet only after many attempts had been made by the track management of the two Universities to decide upon a proper locality. Indeed, at one time, the hope of a dual meet between the two colleges was given up, but when the situation became known, the Albany alumni of Cornell and Princeton, straight-way set about negotiating for the Ridgefield Park grounds, with the result that the meet was scheduled for that place. Those grounds have a banked, oval track, one-third of a mile long, and a 100-yard straight-away. The track was of clay, the single draw-back being that it was too narrow to admit of more than two entries. With a wider track, Mr. Moakley asserts that the score would have been greater, for in the 220-yard dash either Warren or Rogers would have been a sure point winner if entered.

The Cornell record was broken in the low hurdles, Walter doing 25 1-5 seconds as against Lyon's performance of 25 2-5 seconds in the last year's Princeton meet.

The most spectacular event of the meet was perhaps the one-fourth mile run. Rogers from the start pulled rapidly away from the rest, his lead being at no time cut down. Foster, however, who finished second, ran a neck and neck race with Perry of Princeton, and won by hardly half the width of his body, throwing himself over the line a bare winner from the Princeton runner.

Until McMeekan dropped out, the two-mile race belonged to Foster. The latter set the pace for the greater part of the distance, running fifty yards in advance of Williams who was fighting it out with McMeekan, until, however, McMeekan became exhausted and dropped out. Wil-

liams rapidly cut down Foster's lead, and after a close and fierce contest in the last eighth of a mile, crossed the tape a winner.

In the half-mile event the easy, graceful and strong running of Trott was generally admired. From the first, his lead was never questioned. McMeekan, being followed by a Princeton man, was given second place. Cornell gained all the points in the hundred-yard dash. At the crack of the pistol the cornellian and white runners were off like a flash, and before the dazed supporters of the orange and black realized it, had run the hundred yards, all winners, Sears finished easily first, with H. A. Rogers second.

About 800 people saw the meet. The team had their headquarters at the Hotel Kenmore on Pearl street. The University club on Washington street extended a hearty welcome to all, and threw open their apartments to the members of the team. In the evening, the men were guests at the performance of "Lord Chumley," at Proctor's Theatre.

The summaries follow:

100 yard dash—Won by F. M. Sears, Cornell; H. A. Rogers, Cornell, second; G. W. S. Platts, third. Time, 10 1-5 s.

One mile run—Won by W. B. Flanders, Cornell; R. S. Trott, Cornell, second; C. C. White, Cornell, third. Time, 4:44 1-5.

120 yard hurdles—Won by L. T. Ketchum, Cornell; A. Walton, Cornell, second, J. W. Carter, Princeton, third. Time, 16 2-5 s.

440 yard run—Won by H. A. Rogers, Cornell; W. G. Warren, Cornell, second; A. C. Perry, Princeton, third. Time, 51 1-5 s.

Two mile run—Won by R. E. Williams, Princeton; T. M. Foster, Cornell, second; C. S. Sincerbeaux, Princeton, third. Time, 10:11.

220 yard hurdles—Won by A. Walton, Cornell; L. T. Ketchum, Cornell, second; J. W. Carter, Princeton, third. Time, 26 15 s.

220 yard dash—Won by G. W. S. Platts, Cornell; F. M. Sears, Cornell, second; A. C. Perry, Princeton, third. Time, 22 3-5 s.

Half mile run—Won by R. S. Trott, Cornell; David McMeekan, Cornell, second; G. S. Cockran, Princeton, third. Time, 2:03.

Putting 16-pound shot—Won J. R. Dewitt, Princeton, 43 ft. ½ in.; R. W. Rogers, Cornell, second, 40 ft. ¼ in.; F. J. Porter, Cornell, third, with 39 ft. 2¾ in.

Pole vault—A. W. Coleman, D. S. Horton and P. A. Moore, all of Princeton, tied at 10 ft. 9 in.

Running high jump—G. W. Curtiss, Princeton and J. W. Knapp, Cornell, tied for first at 5 ft. 10½ in.; H. F. Porter, third, with 5 ft. 9½ in.

Throwing 16-pound hammer—Won by J. R. Dewitt, Princeton, with 155 ft.; E. O. P. Waud, Cornell, second, with 123 ft. 7 in.; R. G. Wright, Princeton, third, with 122 ft. 5 in.

Running broad jump—Won by J. L. Grimes, Princeton, with 22 ft. ¾ in.; A. Vonnegut, Cornell, second, with 21 ft. 6 in.; B. F. Longnecker, Cornell, third, with 21 ft. 5¼ in.

F. D. BOYNTON, A. M., Principal.

"Like Your Mother Used to Make"

May be a matter of conjugal argument, but like what you used to wear at college is a sentiment that a man can cherish for his very own. In the matter of **DRESS AND NEGLIGENCE SHIRTS**, if we ever had your measure we can make them for you still and mail you samples of material at any time. We are head-quarters for **CORNELL FLAGS** and have the only correct Cornellian shade which differs from all other reds and we now have dyed to order. All the popular sizes at 50c., 75c., \$1.00, \$1.50 and \$2.00 on hand and mailed at once without extra charge.

C. R. SHERWOOD, ITHACA, N. Y.

THE WORTH OF ANY PRODUCT

Is measured by the service it renders. **DIXON'S PENCILS** last longer, and give better satisfaction, than other pencils. They keep their points, and write right right from start to finish. They are constantly growing in favor with students, because they are extraordinary pencils and represent the acme of pencil quality. The experience of the past is the best guide for the future. *Send 16 cents in stamps, mentioning this publication, and receive samples worth double the money.*

BASEBALL VICTORIES.

(Continued from Page 223.)

playing Michigan soon scored four runs. Cornell scored two runs on errors and one clean hit. Score—Cornell 6, Michigan 8.

From then on Bristol had Michigan under control and only allowed two hits the rest of the game scoring one run. In the seventh, Cornell bunched three hits for three runs tying the score. Cornell 9, Michigan 9.

In the eighth Cornell was shut out, but in the ninth Bristol won the game by a three base hit to right field, and was sent home on Brewster's single.

The score:

CORNELL

Earned runs, Cornell 3, Michigan 1; two-base hits, Lewis, Tydemann; three-base hit, Bristol; first base on errors, Cornell 8, Michigan 7; first base on balls; off Henderson 4, off Utey 3; hit by pitched ball, Killian, Schiappacasse; passed ball, McGee; wild pitch, Henderson, Bristol 2; innings pitched, Henderson 5, Bristol 4; hits off Henderson 6, off Bristol 3, off Utey 11; stolen bases, Brown, Roche 2, McGee, Redden; sacrifice hits, Brown, Roche, McGee, Utey; left on bases, Cornell 10, Michigan 10; time of game, 2:16; umpire, Hoagland.

Cornell's second mid-week game was played yesterday, when the nine met the Carlisle Indians. The Indian team was very weak and Cornell easily defeated them to the tune of 12 to 3. Decora was hit heavily during the game, a total of thirteen hits being made off his delivery, but when an easy victory was assured, team eased up on its batting. The Cornell pitchers proved a puzzle to their opponents, and were solved for but five hits.

Cornell's only error was made by Lewis who threw wild to first base, after stopping a difficult ball. Aside from this, his playing and batting was of its usual standard.

Baird, the regular Carlisle catcher, was injured during the morning, and as they had but nine men with them, their team was necessarily shaken up, and this probably was one of causes for the uneven score. Whinery played his usual steady game, putting out six men.

The scoring started in the first inning when six runs were scored by Cornell through heavy hitting. Two two-baggers, as many singles and a three-bagger, together with a passed ball, assured an easy victory in the first few minutes of play. Cornell scored in three other innings, partly through errors on the part of their opponents.

Carlisle's three runs were made in the second and ninth innings. Her

first run was made by Pigeon who was hit by a pitched ball and sent across the plate by the aid of two timely hits. Lewis's wild throw to first and Totiopa's hit to left field brought in the two runs in the ninth inning.

Time of game—1:30; Umpire, Hoagland, Auburn.

Alumni News Elections.

As the result of its recent competition, the ALUMNI NEWS announces the following elections to positions on next year's board.

From 1903: William T. Andrews, Buffalo, N. Y.; Lynn G. Wright, Worcester, Mass.

From 1904: Stuart J. Flintham, Albion, N. Y.; Morgan B. Garlock, Little Falls, N. Y.; Allen Mason, Detroit, Mich.; Edwin M. Slocombe, New Haven, Conn.

George N. Pease, '04, of Portland, Oregon, was elected assistant business manager.

Of last year's board, J. M. Keeler, '03, and R. W. Palmer, '03, will continue as assistants. C. L. Dibble, '03 will succeed Richardson Webster, '02, as editor of the alumni notes; F. D. Colson, '97, P. R. Lee, '03, and H. S. Boone, '02, will continue in their present capacities as editor-in-chief, managing editor, and business manager, respectively. The position of associate editor, held during the past year by H. L. Leupp, '02, will not be filled for the time being.

JOHN REAMER, Prop

George Junior Republic.

Considerable interest has been aroused among the students during the past year in the George Junior Republic, the industrial school situated a few miles from Ithaca, and some active steps have been taken to foster the growth and prosperity of the community. The interest has started largely this year; previous to this, while collections of clothes for the Republic have been received from the students, there has been no general interest aroused and no general collections, but recently the third successive one this year has been made. These collections have been purely gratuitous, and the students have generously given large quantities of very durable and desirable garments. The clothes have been eagerly received by the Republic, and have found a ready sale to the members.

The latest exhibition of the interest of the students has been seen in the circulation of a subscription paper. Its purpose has been that of collecting a fund by small subscriptions to provide the Republic with several scholarships in the Freeville High School. At present the school is purely industrial, and a district school is merely established on the farm. Professor Olmstead has visited the Republic during the past week to see who might be most worthy to receive the scholarships during the following year. The subscriptions are now being collected, about \$75 having been received at present. It is hoped that these scholarships may be maintained permanently.

The Christian Association, through Secretary Andrews, '01, is furthering these projects, and has many new plans in view, among which is that of an entertainment. It is hoped to have several musical club men and a few "stunt" speakers go out and give the citizens a regular college entertainment. The aim of these efforts is the have them meet college men, and to inspire them with the hope of sometime securing a good education. The interest aroused this year has been expressed in such a suitable and unmistakable a manner that there are great hopes of keeping the student body interested in this little force of "citizens."

Sub-Freshmen Meetings.

Through the efforts of the Y. M. C. A. departments of the different colleges, a series of meetings has been held in several of the larger cities. These meetings are intended for those about to enter college next fall, and serve the double purpose of getting the men acquainted, not only with those with whom they will be associated in college, but with men of their own class in other colleges and universities. Prominent representatives from the larger institutions have been promoting the scheme, and their efforts have met with the greatest success. A meeting was recently held in Brooklyn and

was attended by a large number of preparatory school men, at least thirty of whom expect to enter Cornell next fall. Representatives from Princeton, Yale, Harvard, Pennsylvania, Cornell, and other colleges had charge of the meeting, and the pleasures and phases of a college life were presented to the young men in an entertaining manner. An opportunity was thus given them to meet representative college men and to get a direct interest in student activities.

A similar and no less successful meeting has been held in New York city, where Cornell was represented by several alumni. The movement is being followed in Buffalo where, under the supervision of H. B. Lee, '98, and Mr. Hirsch, of the Buffalo Y. M. C. A., it is meeting with great success. Gatherings of a similar nature will soon be held in Albany and various other cities of New York state. The movement has already been so successful, that the plan will probably be followed regularly in the future.

The Director of Sibley college suggests to the alumni that, if copies of famous engravings which will be acceptable in decorating the new Sibley hall can be secured, they will be welcomed at Director Thurston's office. The halls and rooms of many of the new buildings have been adorned with engravings and photographs which have tended to set the interior off to much better advantage. Pictures such as "The Iron Worker and King Solomon," "James Watt, and the Newcome Model," and engravings of noted scientists are especially desirable. It is hoped that the same plan can be followed in this new hall, and that all who are in a position to do so, will confer this favor, not only upon the faculty, but upon the student body as well.

The Cornell lacrosse team was defeated last Saturday, by the Hobart twelve. The score, 3-2, was very close, but the victory did not result from the superiority of the winning team, but was due rather to the poor condition of the Ithaca twelve. The team had not been practising regularly since winning the league championship, and as several substitutes were used, the team was greatly weakened. Hobart played a good strong game. At the end of the first half, the score was 2 to 2, but in the second half, Hobart, by desperate playing caged her third goal, thus winning the game.

The *Sibley Journal* elections resulted in the election to the board of R. S. Cooper, '03, and W. H. Kiskern, '04. As the result of a competition, the third number chosen was C. A. Dawley, '04. The board then organized, electing R. E. Mueden, '03, editor-in-chief in place of Sidney Koons, '02, and H. E. Sibson, '03, business manager in place of L. S. Haskin, '02, of the retiring board.
